

Supertag® Ministry (DARDNI) Approved Cattle Tags

Made from the highest quality Polyurethane with a unique Impact modified self-piercing pin.

Once applied the Supertag® swings freely and can rotate a full 360° out of trouble. Inbuilt solid pin on male Supertags® means when applying tags. There are no needles to snag the applicator when being removed. U.V. Stabilised and Microbial resistant, Supertags® provide 99.5% retention.

U-Tag®

98% Retention - For Serious Breeding Schemes
Combining TPU with a rigid nylon pin, the U-Tag® is an advanced method of long term identification. Made in the same way like Supertag® but in a one piece tag. U.V. Stabilised, Microbial resistant and dark laser printed. When retention is the key issue, the U-Tag® is the first choice for the professional farmer.

I-Tag®

Sheep & Lamb Version

Based on the Suretag® this lightweight tag will fit most needle type applicators. Carrying a purpose wound copper coil and a Philips® Hi-Tag S chip, the I-Tag for sheep is an FDX-B 134.2Khz transponder produced to ISO Standard 11784/5. Available laser printed and supplied in 9 colours for the male and white only for the female part.

Cattle Version

Based on the Suretag® this heavy duty tag is self piercing and is easily applied using the unique no needle applicator. Available in yellow. Carrying a FDX 134.2 KHz transponder, the I-Tag for cattle is produced especially to meet stringent tagging requirements. Available laser printed. All I-Tags supplied with a marking bucket file which provides matchup numbers for all readers and weighing systems.

Used globally, the LiveTrack® reader is the most advanced and affordable ISO livestock hand held wand reader. With a memory of up to 10,000 RFID tags, it improves performance and lowers overhead while processing livestock in the field. Conceived with the help of cattlemen and other livestock professionals the LiveTrack® reader is robust and easy to use, making it an ideal solution for producers, transporters, feedlots, auction houses, sales yards and veterinarians.

Smart Scale®: HiTech Made Simple
Integrated weigh, data collection and EID. Compatible with virtually all herd management software. Upgradable to protect your investment.

Heavy Duty Loadbars - G063
Up to 3500kg weighing capacity. Heavy steel chassis construction to withstand the harshest environments. Ideal for permanent installation.
